

FloodSax®

About FloodSax®

In action

Where to buy

Please follow these steps to ensure that you use
FloodSax® to their full potential.

How to energise your FloodSax®

Finer Filters Limited

Unit 14, Gateway Business Centre

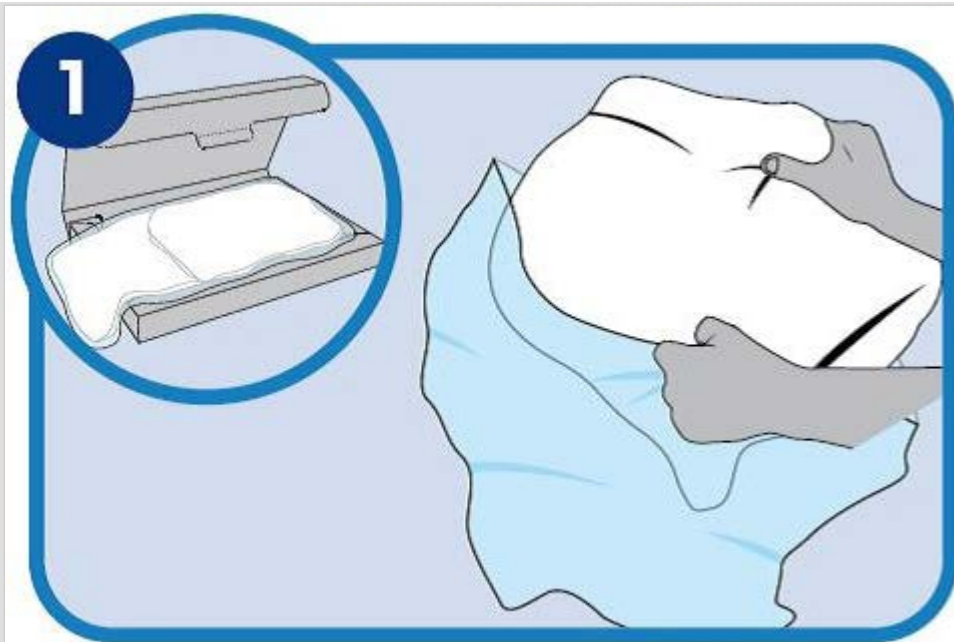

Knockgriffin

Midleton

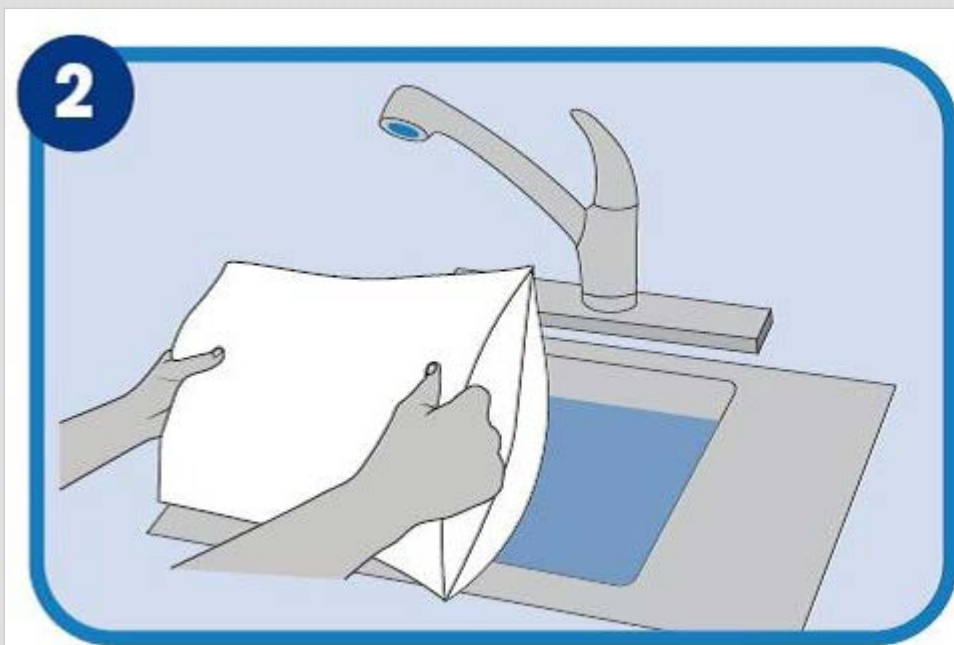

Co. Cork

Phone: 021 463-8727

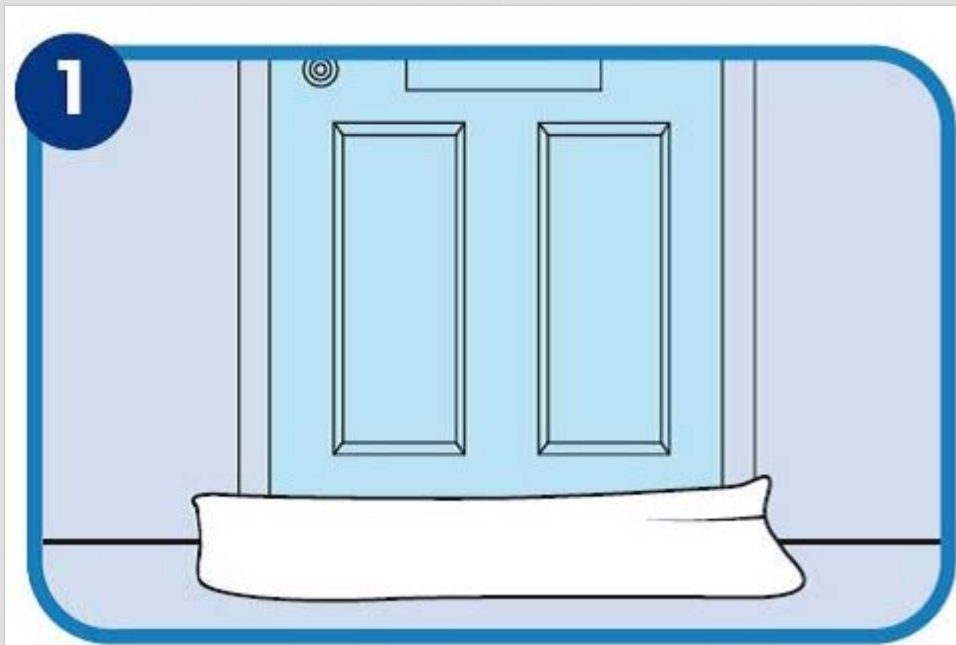

Remove outer packaging. Then open the vacuum-sealed bag and remove the FloodSax®.

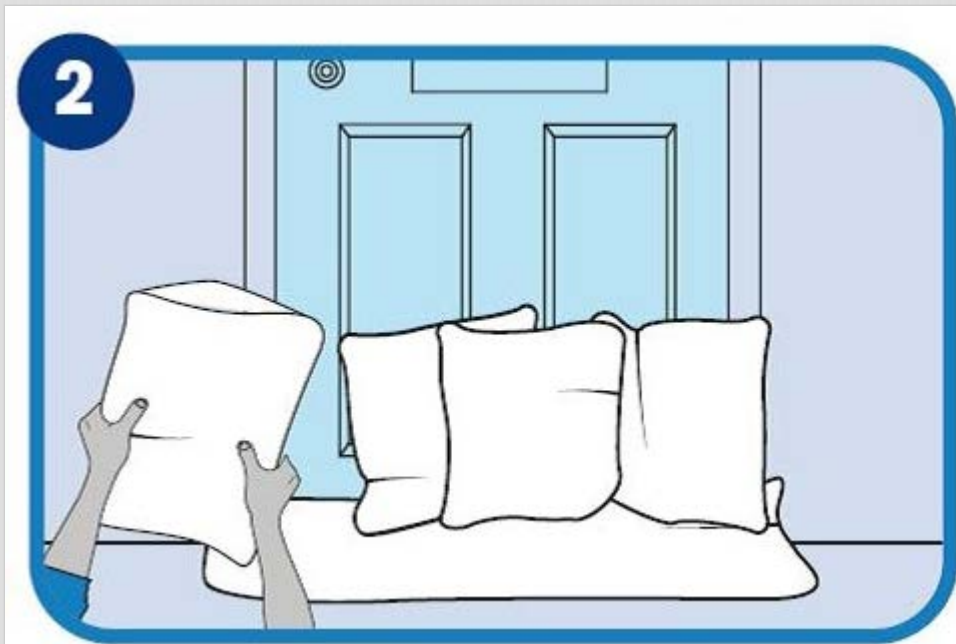

Energise your FloodSax®. This can be done by soaking the FloodSax® with water until they are fully expanded. This should take 2 to 3 minutes.

- You can soak your FloodSax® in the sink, a bucket or wheelbarrow
- You can use a hosepipe or watering can
- You can use rain water

How to build your wall of FloodSax®

After energising, place one long FloodSax® against the base of the door.

And then build a wall on top by vertically overlapping the other energised FloodSax®.
